

# Bromley Pub Walks

Would you like to help us to survey and prepare the next phase of the guides?

So far, the route guides have been surveyed and drafted for only 19 of the proposed 39 routes.

There is still quite a lot of work to do to complete the guides for the remaining routes, and we would also eventually like to make some improvements to the guides that have already been published.

If you like walking, and have a few hours to spare, would you be interested in helping us work on the Bromley Pub Walks project?

There are several ways in which members (and friends) could get involved with the project, these include:

- Joining the team surveying the routes
- Walking the routes, to check that the draft guides are correct and sufficient; this needs to be done by one or more people who were not involved with the initial survey
- Proof-reading of documents before publication
- Walking the already-published routes, to provide a more detailed description of each route
- Also, we would like to improve the quality of the maps for each route. So, if you have cartography skills, and the appropriate software, please do let us know

If you think that you might be interested in getting involved, please drop us an email:
